I understand that these activities may place me deeper than I am able to safely execute a free (without breathing gas) ascent from.

_____ and
Instructor
The Dive Outfitters Ltd located in the
Facility

City of Edmonton and State of Alberta

Read and discuss this statement prior to signing it. You must complete this Medical Statement, which includes the medical-history section, to enroll in the scuba-training program. If you are a minor, you must have this statement signed by a parent. Diving is an exciting and demanding activity. When conducted correctly, applying accepted techniques, this sport has very acceptable risks.

When established safety procedures are not followed, however, there are dangers. To scuba dive safely, you must not be extremely overweight or out of condition. Diving can be strenuous under certain conditions. Your respiratory and circulatory systems must be in good health. All body air spaces must be normal and healthy. A person with heart trouble, a current cold or congestion, epilepsy, asthma, a severe medical problem or who is under the influence of alcohol or drugs should not dive. If taking medication, consult your doctor and the instructor before participation in this program. You will also need to learn from the instructor the important safety rules regarding breathing and equalization while scuba diving. Improper use of scuba equipment can result in serious injury. You must be thoroughly instructed in its use under direct supervision of a qualified instructor to use it safely.

If you have any additional questions regarding this Medical Statement or the Medical History section, review them with your instructor before signing.

MEDICAL HISTORY - To the Participant

The purpose of this medical questionnaire is to find out if your doctor should examine you before participating in recreational dive training. A positive response to a question does not necessarily disqualify you from diving. A positive response means that there may be a possible preexisting condition that could affect your safety while diving and you must seek the advice of your physician. Please answer **EACH ONE** of the following questions on your past or present medical history with a **YES** or **NO**. If you are not sure, answer **YES**. If any of those items apply to you, we must request that you consult with a physician prior to participating in scuba diving.
